

# NTA Seminars

Come join the rest of your NTA family on July 14<sup>th</sup> through the 17<sup>th</sup> in Springfield, Illinois! Again this year we have some incredible new seminars lined up and believe there will be something for everyone. Several seminars have never been presented at an NTA convention and we hope you will like them. We will be covering some innovative techniques that will greatly help you as a taxidermist as well as enhance your business at the same time. This should mean \$\$ in your pocket!

The NTA is proud to boast that it is a family convention. This means we have seminars which are dedicated for kids. These workshops will be taking place during the same time slots as adult seminars. Also scheduled is the children's seminar for Friday evening during the auction and membership meeting. Another highlight for the kids is the Saturday night Pizza Lock-in which they can attend rather than attending the Awards Banquet. Adult supervision is on hand, as well as movies and games for the kids. Bring along a pillow and sleeping bag too! This has proven to be a great time for them.

We can always use additional hands in the children's seminars. This is one area where we really need you to become involved and help by volunteering. If you are willing to donate your time and talents, please contact myself, or Cindy at NTA Headquarters. We look forward to your help in providing an enjoyable time for the kids.

We will have a full list of seminars in the next issue of Outlook and look forward to seeing you at the convention. Have safe travels!

Steve Wolk – NTA Seminar Chairman
